

ANSUMAN DAS

Flat No: 402, Puri Canal Road, Hanspal, Bhubaneswar, Odisha, 752101 | 8480228158 |
dasansuman12@gmail.com

A position where my knowledge and experience can be better utilized in pursuit of professional and personal goals.

EXPERIENCE

Working with Infosys 3rd Party pay role (Blue Rose Technologies)
05/2023 – 25/05/2023

Developing the end client website with the Infosys team.

Project Details and Responsibilities

- Echelon Insurance
Developed and contributed to the Echelon Insurance project, a web application built with Next.js and Contentful GraphQL. The project aimed to provide a seamless user experience for insurance-related services.
 - Collaborated in the development of a modern web application using Next.js, a popular React framework.
 - Implemented responsive design practices to ensure optimal performance on various devices and screen sizes.
 - Utilized Contentful's GraphQL API for efficient content management and data retrieval.
 - Optimized website performance for fast loading times.
 - Conducted extensive testing to identify and rectify bugs, ensuring a smooth user experience.
 - Contributed to the refinement of the user interface and overall user experience based on testing feedback.

Facilitated the deployment of the project on a testing server. The testing URL for the Echelon Insurance project can be accessed here:
<https://uat.test.echeloninsurance.ca/>.

It was a contract to higher position I was working as a senior frontend developer.
